

Fakultät für Mathematik und Physik

The Faculty of Mathematics and Physics invites applications for a

Professorship in Experimental Physics (W3)

in the field of **experimental particle physics**, with focus on data analysis and computing in high energy physics experiments.

A prerequisite is the “Habilitation” or an equivalent scientific qualification. The successful applicant is expected to participate in the general teaching and administrative duties of the department. The university is seeking to increase the number of female faculty members and therefore especially encourages suitably qualified women to apply. Applicants with a physical handicap will be given preference over other candidates provided they are equally qualified.

The professorship is available as a permanent position. In case of a first time appointment to professorship, the appointment is, as a rule, temporary, with possible exceptions. The subsequent appointment to a permanent professorship does not require a renewed, full application procedure.

Applications (with a curriculum vitae, copies of degree certificates, list of publications and teaching records) should be sent by **January 15th 2007**, to the **Dekan der Fakultät für Mathematik und Physik, Eckerstr. 1, D-79104 Freiburg, Germany**.
