

Tracking Status and Stereo Studies

**Matthew Herndon
Johns Hopkins University**

Tracking Meeting

Oct 22, 2003

Tracking Status

5.1.0 Status

- Release for farms use: MC untested
- Processing started again: seems OK

5.2.0 Status

- Release for user analysis, simulation and production
- Simulation tested
- Not enough man power to test Production - will be done eventually
- Will be released: probably today!

5.3.0 Plan

- For tuning of simulation: svx material and calorimeter response
- First version of new svx material description ready
- Also final version L00 code for winter analysis
- Accepting int1 tags
