

Removing XTRD from Readout

- XTRPSim gracefully exits when the XTRD bank is not present
- XTRPSim can generate XTRD from XFLD
 - Currently available via talk_to
 - Dirac bits only exist in XTRD
- Will all Trigmon events contain XTRD bank?
How often is XTRD readout and how is this controlled?
- Publicize that XTRD will no longer be present in all events
 - L3, Production, Validation, Private analysis code
