

**DEPARTMENT OF PHYSICS & ASTRONOMY  
UNIVERSITY OF VICTORIA**

**ASSISTANT PROFESSOR IN EXPERIMENTAL PARTICLE PHYSICS**

The Department of Physics and Astronomy at the University of Victoria invites applications for a tenure-track faculty position in experimental particle physics at the rank of Assistant Professor.

The Department of Physics and Astronomy (<http://www.phys.uvic.ca/>) consists of approximately 22 faculty working in particle physics, astronomy/cosmology, condensed matter physics, ocean physics and medical physics. The existing high energy physics group consists of three theoretical and five experimental faculty members and two IPP Research Scientists. The experimental group has significant efforts on the ATLAS experiment at CERN, BABAR at SLAC, T2K experiment at JPARC and the Linear Collider. Applicants should have postdoctoral experience with an excellent record of research accomplishment in experimental particle physics and exceptional promise for future research achievements. Applicants must have a strong commitment to effective graduate and undergraduate education in physics.

Applications including a curriculum vitae, publication list, statement of present and future research interests, and the names and addresses of at least three referees, should be sent to

J. M. Roney, Chair  
Department of Physics and Astronomy  
University of Victoria  
Victoria BC V8W 3P6  
Canada

The consideration of applications will begin on March 6, 2006 for an expected starting date of July 1, 2006.

The University of Victoria is an equity employer and encourages applications from women, persons with disabilities, visible minorities, aboriginal peoples, people of all sexual orientations and genders, and others who may contribute to the further diversification of the University. All qualified candidates are encouraged to apply; however, in accordance with Canadian Immigration requirements, Canadians and permanent residents will be given priority.
