

Post Doctoral Researcher or Research Associate/Experimental particle physics/Univ. of Kansas.

Applications are invited for a post doctoral or research associate position in experimental high energy physics at the University of Kansas beginning as early as September 1, 2012. Post doc candidates are required to have a Ph.D. in physics by date of appointment and research experience in experimental high energy physics or a related experimental field. Candidates with two or more years of post doctoral experience may be eligible for appointment as research associate. The person would work with the Kansas group on pixel detector development and physics data analysis for the CMS experiment at CERN and would be located in Switzerland. Candidates with relevant interests and experience are sought. For more information and to apply go to <https://jobs.ku.edu> and search for position 00061132. Initial review of applications will begin July 16, 2012 and will continue until the position is filled. Inquiries can be made by e-mail to baringer@ku.edu. EO/AA Employer.
