

## **Robert R. Wilson Fellows Program**

The Wilson Fellowship program at Fermilab seeks applications from Ph.D. physicists of exceptional talent with at least two years of post-doctoral work. The fellowships are awarded on a competitive basis and support physicists early in their careers by providing unique opportunities for self-directed research. Fellows will work on the Fermilab particle physics experiment of their choice. The Fermilab experimental program includes collider physics at both the Tevatron and the LHC, studies of neutrino oscillations, quark flavor physics, and astroparticle physics.

The Wilson Fellowships are tenure track positions with an annual salary fully competitive with university assistant professorships. The appointment is for an initial term of three years and can be renewed for an additional two years upon the completion of a successful review after the first two years.

Each candidate should submit a research statement describing a proposed research program, curriculum vitae, and should arrange to have four letters of reference sent to the address below. Application materials and letters of reference should be received by October 31, 2004.

Materials, letters and requests for information should be sent to:

**Wilson Fellows Committee**  
**Fermi National Accelerator Laboratory**  
**MS122, Attention: Cathryn Laue**  
**P.O.Box 500 Batavia, IL 60510-0500**  
**email: [wilson\\_fellowship@fnal.gov](mailto:wilson_fellowship@fnal.gov)**
