

PULSAR/PC Test Update

Bi-weekly Pulsar Meeting
August 29th, 2003
Kristian Hahn
University of Pennsylvania

Re: Send, Algorithms, Receive

▶ Send:

- We Have VME code that emulates the S-Link send
- Issues with vxworks and large file I/O

▶ Algorithms:

- We've Incorporated CJL's Reces zero supression into data and unpacking code (Fritz)
- Testing for errors

▶ Receive:

- We're Investigating vxworks timing mechanisms for first-pass roundtrip measurements
